DETAILED ACTION

Response to Amendment

1. Applicant's submittal of an amendment was received on April 21, 2005, wherein claims 1-4 and 6-12 were amended and new claims 13-24 were added.

Allowable Subject Matter

2. Claims 1-24 are allowed over the prior art.
3. The following is an examiner's statement of reasons for allowance: In the Examiner's opinion, a board for gliding (ski) having a side cut with an accentuated camber "wherein the width of the shoulder [maximum width of the shovel of the ski] of the ski line is distinct from and located forward of the forward contact line toward the shovel and wherein a height of the width of the shoulder of the ski line, measured between the bottom surface and the horizontal planar surface, is substantially between 5mm and 15 mm" was not anticipated by the prior art, nor would it have been obvious to a person of ordinary skill in this art. The prior art in DeBorde et al. discloses wherein the maximum width of the shovel (Ls) is located behind the front contact line (Lcav) of the ski.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
